

STRONG TEAMS ARE EVERYTHING.  
TAP INTO THE HEART OF YOUR PEOPLE.

**It's no secret: talent management has changed.** Virtual employees, flexible schedules, and a rapidly changing culture call for a different strategy. But you still have market shares to capture and customers to keep. Believe it or not, your team has heroes -- people who each bring a valuable lens to work. These heroes soar together when they know their superpowers and their speed bumps.

*The Enneagram* is a growth-oriented tool that identifies nine personality types and provides individuals and teams insight into how these types engage in all spheres of life. With a proper guide, *the Enneagram* can inspire your heroes to use their unique type to boost performance and excel along the growth path.

**Inflammo combines *the Enneagram* with business acumen to help your team climb higher and faster in the way teams are meant to function.** Through discovery, coaching and accountability, you and your team will know your superpowers and your opportunities to more keenly navigate the needs of your business and customers.
